

Webster Conservation Commission Work Session

Minutes – June 13 10 – 12 am

Present: Chris Schadler, Chair; Sue Roman, Betsy Janeway, Sally Embley, Nancy Rideout,

Agenda

Research and discussion of a Wetland and Water Protection Ordinance

We reviewed NHDES Wetland Buffer information and several other town wetland ordinances such as the Towns of Durham, Portsmouth, Auburn.

We preferred the ordinance from the town of Auburn as it appears to be the most complete but we will continue to investigate other options.

We also identified other resources for further research on wetland buffers, their functions and values.

We reviewed our maps on file and realized that we will need maps with more detail on hydric soils, size and function.
