

TOWN OF WEBSTER
HAZARD MITIGATION COMMITTEE
945 Battle Street
Webster NH 03303

Hazard Mitigation Committee Meeting – January 8, 2014

Members present: Rob Wolinski and Judith Jones. Also present was former Hazard Mitigation 2012 Update Committee Member Sally Embley.

7:22 pm As no committee chairman has been elected, Mrs. Jones opened the meeting.

Rob Wolinski reported on accomplishments from the “check list” as follows:

1. The Fire Department worked with DES on the installation of the new dry hydrant behind the Webster Elementary School. It is finished, flow testing is done and all is operational.
2. Received and made copies for the Town Hall, Police and Fire Departments of the emergency evacuation plan for the Webster Elementary School.
3. The Smokey the Bear sign posts are installed at the Public Safety Building and a senior at Merrimack Valley High School is doing the actual sign to be completed as his senior project by May 1st.
4. There has been discussion regarding snow and ice issues at the Public Safety Building. He has contacted Cobb Hill Construction, Inc. from Concord and Bruss Construction, Inc. from Bradford for estimates regarding increasing some of the eaves and building “dog houses” to alleviate the issues. The quotes should be available in the next few weeks.

Mrs. Embley advised that there is no Conservation Commission Member appointed to the Hazard Mitigation Committee at this time. Mrs. Jones explained that this newly formed committee consisted of five members appointed by the Select Board and that the former “Update” committee had all been invited to join tonight’s meeting. CNHRPC has also recommended that all Department Heads be invited to all the Haz Mit Meetings, expected to be held four times a year.

Mrs. Embley discussed the Conservation Commissions town wide trash clean-up project planned around Earth Day on April 22nd. Last year’s event was staged at the Public Safety Building and went well.

The committee set the next committee meeting for Wednesday, April 9, 2014 at 7:00 pm at the Town Hall with the remaining meetings to be set at that time.

7:35 pm Meeting adjourned.

Respectfully submitted,

Judith M. Jones
